

CURVE TRAINER

spec sheet

heads up training

WOODWAY believes in sound biomechanics. Our products are designed to reinforce proper running form while still providing you with the information needed for your workout.

build stamina

The CURVE TRAINER has a slightly flatter base than our CURVE treadmill. This design creates versatility by making short to middle distance running more effective and sustainable for the user - thereby building stamina and endurance. An excellent choice for joggers and walkers.

game changer

We created the CURVE treadmill series from customer feedback and it spawned an entirely new market segment of "curve" treadmills. Nearly five decades in the game, it's expected to have imitators - but WOODWAY is still the innovator. Our slat-belt and our CURVE designs changed the game, period.

quick specs

-  total dimensions: 73" L x 33" W x 67" H
-  running surface: 67" L x 17" W
-  speed: unlimited
-  curvature: $\approx 3\%$
